

Drum Dreams

The Drum Circle
Workshop

Welcome to Drum Dreams

*A place where we blend passion with wellbeing. Passion that comes from creativity.
The passion for "DRUMMING".*

We create a musical milieu for the corporates that helps them unload their day to day stress baggage and get into the brand new experience of trying their hands on this amazing gizmo called "Drums". Various team building exercises performed here would help them in successful leadership, focus, and ability to work effectively with others.

Today, stress has become a foreseeable element at workplace. De stress tips have become a must to bring some semblance of order in our busy lives. And we believe, stress management is a serious issue that can be handled just by having some fun, exactly what Drum Dreams intends to do. Drum Dreams includes a lot of fun activities to take the edge off all your stress and recharge/rejuvenate you with art form.

It has been proven that drumming can alter a person's response to stress at a genomic level. And hence, Drum Dreams follows this logic by integrating drumming into other interactive activities. So, after an intense day at the office, Drum Dreams gives you an opportunity to try your hands on these instruments that can physiologically relax your mind and refuel you for the next day. This goes for all you beginners too. What makes drumming at Drum Dreams so inviting is that it is quite easy for inexperienced players to pick up without the frustration of learning technical skills! So, be a part of this Musical Madness that is going to set you free...STRESS FREE, that is!

Objective:

- Teach team building in a unique way
- Stimulate creative thinking
- Promote cooperation among participants
- Demonstrate the individual effect on the larger whole
- Encourage clear communication
- Develop communication skills
- Motivate interaction between participants
- Define common ground
- Provide a playful vehicle for experiential learning
